A

Acid-base
Strong ion difference: metabolic acidosis or alkalosis?
(letter), 94

Acidosis, respiratory. See Hypercapnia and hypercarbia

Active cycle of breathing
for airway clearance, 783
in children, 826

Acute respiratory distress syndrome (ARDS)
high-frequency ventilation for, 323
lung recruitment in mechanical ventilation, 310
partial liquid ventilation for, 325
positive end-expiratory pressure in, 279
prone positioning in, 327

Adrenergic beta receptor agonists
for acute asthma, 173

Aerosols and aerosol administration
albuterol administration in neonatal ICU, 31
book review
     Drug delivery to the lung, 1337
     in children, 1314
delivery through artificial airway, 1279
dNA, device evaluation, 1415
electrospray and targeted drug inhalation, 1419
insulin, device evaluation, 1414
ipratropium bromide, dry powder vs metered-dose inhaler formulations, 159
nebulizers
design principles, 1257
economic aspects, 1321
emerging technologies, 1471
formulations and performance of, 1305
future of, 1459
performance assessment, 1290
performance standards, 1445
smart nebulizers, 1434
systems forcing pressurized liquids through nozzles, 1392
using vibrating mesh or plate, 1406
with positive expiratory pressure, 792

Air leak test
corticosteroids and, in intubated children, 662

Airflow obstruction
unilateral expiratory, during forced exhalation (case report), 693

Airway care and management
book review
     Airway management in the critically ill, 921

Airway clearance. See Fluids and secretions, clearance techniques

Airway pressure
patient-ventilator asynchrony, in low tidal volume ventilation, 183

Airway resistance
neonatal endotracheal tube size and, 994

Airways, artificial
aerosol delivery via, 1279
airway clearance techniques and, 808
resistance to, in ventilator weaning, 469
safety concerns, 478

Albuterol
administration in intubated neonates, 31
oral/metered-dose inhaler vs intravenous/nebulizer regimen for COPD, 155

Alternative medicine
book review
     Mosby’s complementary & alternative medicine: a research-based approach, 829

1492 RESPIRATORY CARE • DECEMBER 2002 VOL 47 NO 12
Altitude sickness
book review
High altitude: an exploration of human adaptation, 1204

American Association for Respiratory Care
In-hospital transport of the mechanically ventilated patient—2002 revision & update (AARC clinical practice guideline), 721
International Respiratory Congress, 17th New Horizons Symposium, proceedings, 759
OPEN FORUM abstracts—2002, 1030
Oxygen therapy for adults in the acute care facility—2002 revision & update (AARC clinical practice guideline), 717
Pulmonary rehabilitation (AARC clinical practice guideline), 617
The RESPIRATORY CARE journal conferences: 20 years of excellence and innovation (editorial), 238
Selection of an oxygen delivery device for neonatal and pediatric patients—2002 revision & update (AARC clinical practice guideline), 707

American Respiratory Care Foundation
cconference sponsorship by, 238, 247

Aminophylline
for acute asthma, 176

Anatomy
book review
Structure & function of the body, 11th ed, 187

Anesthesia and anesthetics
in acute asthma, 179
book review
Statistical methods for anaesthesia and intensive care, 1028
in mechanical ventilation, 334

Anticholinergic drugs
for acute asthma, 175

Anxiety
drugs in mechanical ventilation and, 336

Apnea
mechanical ventilation in, 255

Arterial blood gases
daytime vs nighttime, in long-term oxygen therapy, 882
neonatal, sensor validation for, 682

Arteriovenous fistula
pulmonary (case report), 998

Aspiration
endotracheal tube placement and, 809

Assessment, patient. See Patient assessment

Asthma
acute, management in adults (special article), 171
book reviews
Allergies and asthma for dummies, 703
Asthma: stop suffering, start living, 3rd ed, 1339
Asthma and respiratory infections, 923
Asthma and rhinitis, 2nd ed, 95
Asthma sourcebook, 97
Asthma’s impact on society: the social and economic burden, 95
Bronchial asthma: principles of diagnosis and treatment, 4th ed, 700
Combination therapy for asthma and chronic obstructive pulmonary disease, 98
Control your child’s asthma: a breakthrough program for the treatment and management of childhood asthma, 704
CRC desk reference for allergy and asthma, 702
Environmental asthma, 705
Manual of asthma management, 2nd ed, 701
My house is killing me! The home guide for families with allergies and asthma, 1341
New and exploratory therapeutic agents for asthma, 97
Severe asthma: pathogenesis and clinical management, 2nd ed, 1339
Churg-Strauss syndrome occurring 30 years after ulcerative colitis (case report), 167
clinical assessment, 172
epidemiology, 172
mechanical ventilation in status asthmaticus, 257
pathogenesis, 172
positive end-expiratory pressure for, 284

Atelectasis
intrapulmonary percussive ventilation vs chest physiotherapy, in children, 1162
in mechanical ventilation, 297
recruitment maneuvers in general anesthesia, 310

Auscultation and breath sounds
software review
R.A.L.E. lung sounds 3.0 (CD ROM), 1024

B

Bacteria
in ventilator-associated pneumonia (letter), 696

Bench evaluations
critical care ventilator modification, in magnetic resonance imaging, 61

Benzodiazepines
in mechanical ventilation, 336
propofol and rapid shallow breathing index, in ventilator weaning, 150

Blood gases
continuous intravascular sensor, clinical validation in neonates, 682
evaluation of new sensor (letter), 1200
low perfusion and motion artifact, in pulse oximetry, 48
pulmonary gas exchange during sleep in long-term oxygen therapy (editorial), 876

  physiology of clearance, 761
Positive end-expiratory pressure (PEEP)
- in acute respiratory distress syndrome, 279
- for asthma, 284
- for chronic obstructive pulmonary disease, 284
- how to set, 279
- lung recruitment and, 309, 513
- in mechanical ventilation, 266
- patient-ventilator asynchrony, 183
- portable ventilator battery duration and, 1173
- tidal ventilation and, 280, 510
- in unilateral lung injury, 283
- work of breathing, spontaneous, 39

Positive expiratory pressure (PEP)
administration techniques, 791
with aerosol therapy, 792
for airway clearance, 786, 827
in children, 827

Positive-pressure ventilation, noninvasive. See also Mechanical ventilation
book review
Noninvasive positive pressure ventilation: principles and application, 350
indications for, 249
nocturnal
- in COPD, 596
- in cystic fibrosis, 675
- in ventilator weaning, 478

Postural drainage
contraindications for, 775
positioning vs, for airway clearance, 769
procedure, 775

Propofol
rapid shallow breathing index, in ventilator weaning, 150

Prostacyclin
inhaled, 1463

Protocols
dyspnea evaluation, 1158

Pulmonary function testing
bedside spirometry, 578
To blow or not to blow—that is the question (editorial), 1145
dyspnea, clinical measures of, 986
noninvasive positive pressure ventilation, in cystic fibrosis, 675
propofol and rapid shallow breathing index, in ventilator weaning, 150
spontaneous breathing test, failure of, patient management, 77
unilateral expiratory airflow obstruction during forced exhalation (case report), 693

Pulmonary hypertension
persistent, of newborn, nebulizer treatment of, 1462

Pulmonary surfactants
aerosol administration of, 1464

Patient transport. See Transportation of patients
Pediatrics. See Respiratory care, pediatric
PEEP. See Positive end-expiratory pressure (PEEP)
Percussion
- for airway clearance, 775
Perflubron
- in partial liquid ventilation, 39
PFT Corner
- variable FEV₁ following methacholine inhalation, 915
Pharmacology. See Drugs and drug therapy
Phosphodiesterase inhibitors
- nebulization of, 1464

Physical therapy
book review
Physiotherapy in respiratory care: an evidence-based approach to respiratory and cardiac management, 3rd ed, 829

Physical therapy, chest. See Chest physical therapy

Physicians
- expectations of respiratory therapists for patient assessment, 583
