A

Acute lung injury

- acute fibrinous and organizing pneumonia caused by decitabine (case report), 1263
- legacy of NIH Acute Respiratory Distress Syndrome Network (Kittredge Lecture), 912
- noninvasive ventilation for, randomized controlled trials, 118
- noninvasive ventilation outcomes in acute hypoxemic respiratory failure, 1679
- optimal PEEP vs. recruitment maneuvers during lung-protective mechanical ventilation, 847
- A sigh of relief for ARDS? (editorial), 839
- translating evidence into practice, 1386

Acute respiratory distress syndrome (ARDS)

- airway pressure-release ventilation in pregnancy (case report), 1405
- extracorporeal membrane oxygenation for, 951
- legacy of NIH Acute Respiratory Distress Syndrome Network (Kittredge Lecture), 912
- noninvasive ventilation for, randomized controlled trials, 118
- noninvasive ventilation outcomes in acute hypoxemic respiratory failure, 1679
- optimal PEEP vs. recruitment maneuvers during lung-protective mechanical ventilation, 847
- A sigh of relief for ARDS? (editorial), 839

Acute respiratory failure

- noninvasive ventilation for
 - delivery sites, 62
 - in do-not-intubate patients, 223
 - history and epidemiology, 40
 - interfaces and humidification, 71
 - randomized controlled trials, 116
 - in Veterans Affairs hospitals, 1313

Adenocarcinoma, bronchioalveolar

- hypoxemic respiratory failure from lung adenocarcinoma with (teaching case of the month), 1496

Advance directives

- noninvasive ventilation for do-not-intubate patients, 223

Aerosols and aerosol administration

- arformoterol inhalation solution, output and aerosol properties of five nebulizer systems, 1342
- arformoterol nebulization and delivery, breathing pattern influence, 1488
- budesonide delivery from 30 jet nebulizer/compressor combinations, 1671
- chronic obstructive pulmonary disease
 - hyperosmolar saline for, 318
 - hypertonic vs. normal saline in exercise training, 327
- cystic fibrosis
 - antibiotics for, 658
 - delivery devices, 754
- moisture accumulation in inline spacer and metered-dose inhaler aerosol delivery, 1336
- slow-mist devices, 758
- smart devices, 761
- vibrating-mesh devices, 759
- workload comparison with 2 different nebulizers, 495

Age factors

- maximal respiratory mouth pressures in adults, 1348

Airway care and management

- airway humidification during high-frequency percussive ventilation, 350. Correction, 978
- book reviews
 - Airway management in emergencies* (Kovacs G, Law JA), 266
 - Manual of emergency airway management*, 3rd ed (Walls RM, Murphy MF), 1508

- in cystic fibrosis
 - airway clearance therapy guidelines and implementation, 733
 - airway clearance therapy techniques, 739
 - respiratory therapist role, 587
 - mechanical insufflation/exsufflation in neuromuscular disorders, 1473
 - for pulmonary exacerbation in cystic fibrosis, 769
 - Airway obstruction**
 - inspiratory flow-volume curve, for upper airway disease detection, 461
 - specific conductance criteria for positive methacholine challenge test, 1168
 - spirometry for assessment in COPD, 1050. Correction, 1501
 - spirometry vs. flow-volume loop for detecting, 474
 - Airway pressure**
 - expiratory regulation and Servo-i ventilator during invasive neonatal ventilation (letter), 1118
 - maximal respiratory mouth pressures in adults, 1348
 - maximum inspiratory and expiratory pressure reference equations (editorial), 1304
 - Airway pressure-release ventilation**
 - in pregnant patient with ARDS (case report), 1405
 - All-trans-retinoic acid (ATRA) syndrome**
 - noninvasive ventilation for respiratory failure from, in pregnancy (case report), 969
 - Allergies.** *See* **Hypersensitivity**
 - Ambulatory care**
 - portable oxygen delivery modes and functional exercise capacity in COPD, 344
 - American Thoracic Society**
 - specific conductance criteria for positive methacholine challenge test, 1168
 - Aminoglycosides**
 - inhaled, for cystic fibrosis, 665
 - Antibiotic drugs**
 - for cystic fibrosis, 628, 658
 - Anticholinergic drugs**
 - inhaled, for stable COPD, 1060
 - Antimicrobial resistance**
 - inhaled antibiotics for cystic fibrosis, 666
 - Antineoplastic agents**
 - acute fibrinous and organizing pneumonia caused by decitabine (case report), 1263
 - Aorta**
 - late presentation of double aortic arch in children with asthma (case report), 1402
 - Arformoterol**
 - breathing pattern influence on nebulization and delivery, 1488
 - output and aerosol properties of five nebulizer systems, 1342
 - Asthma**
 - administration of inhaled bronchodilators (editorial), 455
 - adult disease management (review article), 878
 - book reviews
 - Allergy and asthma: practical diagnosis and management* (Mahmoudi M), 265
 - Asthma* (Currie GP), 979
 - Asthma care in the community* (Waldron J), 127
 - Clinical asthma* (Castro M, Kraft M), 1507
 - chronic disease and care management programs for adults (editorial), 844
 - late presentation of double aortic arch in children with (case report), 1402
 - noninvasive ventilation for
 - in emergency department, 1306
 - randomized controlled trials, 121
 - specific conductance criteria for positive methacholine challenge test, 1168
 - translating evidence into practice, 1386
 - Attitude of health personnel**
 - metered dose inhaler with spacer vs. nebulizer for SARS treatment, 855
 - Autogenic drainage**
 - technique, 747
 - Automatic tube compensation**
 - for ventilation weaning in neuroparalytic snake bite injuries, 1697
- B**
- Bacterial infections**
 - bacterial colonization of respiratory therapists' pens, 500
 - in cystic fibrosis, 628, 641
 - Bench evaluations**
 - Acapella device, pressure characteristics under different conditions, 1480
 - design parameters for positive expiratory pressure therapy bottle device, 504
 - LTV-1000 portable ventilator, accuracy of oxygen cylinder duration calculator, 1183
 - self-inflating resuscitation bag, oxygen concentrations without reservoir, 1665
 - Beta2-adrenergic agents**
 - inhaled, for stable COPD management, 1065
 - Biofilms**
 - formation in cystic fibrosis, 628
 - Biopsy**
 - book review
 - Transbronchial and endobronchial biopsies* (Cagle PT, Allen TC, Kerr KM), 1122
 - Blowing therapies**
 - techniques, 743
 - Body position**
 - obesity and functional residual capacity, 320, 334

resting lung volume in overweight and obese subjects, 334

Book reviews

- Airway management in emergencies* (Kovacs G, Law JA), 266
- Allergic diseases diagnosis and treatment*, 3rd ed (Lieberman P, Anderson JA), 1503
- Allergy and asthma: practical diagnosis and management* (Mahmoudi M), 265
- Asthma* (Currie GP), 979
- Asthma care in the community* (Waldron J), 127
- Chest radiology: the essentials*, 2nd ed (Collins J, Stern EJ), 671
- Chest X-ray made easy* (Karthikeyan D, Chegu D), 129
- Chronic obstructive pulmonary disease: a forgotten killer* (Midgley C), 399
- Clinical asthma* (Castro M, Kraft M), 1507
- Clinical tuberculosis*, 4th ed (Davies PDO, Barnes PF, Gordon SB), 674
- Color atlas and text of pulmonary pathology*, 2nd ed (Cagle PT), 1121
- The comfort of home for chronic lung disease: a guide for caregivers* (Meyer MM et al), 402
- Cough: from lab to clinic* (Korpas J et al), 130
- Critical care: just the facts* (Hall JB, Schmidt GA), 131
- CT of the airways* (Boiselle PM, Lynch DA), 267
- Diagnostic pulmonary pathology*, 2nd ed (Cagle PT et al), 1416
- Egan's fundamentals of respiratory care*, 9th ed (Wilkins RL et al), 545
- Emergencies in critical care* (Beed M et al), 547
- Evidence-based emergency care. Diagnostic testing and clinical decision rules* (Pines JM, Everett WW), 801
- Fishman's pulmonary diseases and disorders*, 4th ed (Fishman AP et al), 268
- From both ends of the stethoscope* (Petty TL), 1505
- Hyperbaric medicine practice*, 3rd ed (Kindwall EP, Whelan HT), 979
- In the clinic: practical information about common health problems, from the pages of Annals of Internal Medicine* (Laine C, Goldmann, DR), 1502
- Infection prevention and control: theory and practice for healthcare professionals* (Weston D), 400
- Integrated cardiopulmonary pharmacology*, 2nd ed (Colbert BJ, Kennedy BL), 1739
- Interpretation of pulmonary function tests: a practical guide*, 3rd ed (Hyatt RE et al), 1416
- Jeff May's healthy home tips: a workbook for detecting, diagnosing, & eliminating pesky pests, stinky stench, musty mold, and other aggravating home problems* (May JC, May CL), 673
- Living with your heart & lungs* (Bryant SL, Obst G), 1736
- Lung cancer*, 3rd ed (Roth JA et al), 803
- Managing chronic obstructive pulmonary disease* (Blackler L et al), 127
- Managing in health care: business strategy* (Moseley GB), 1273
- Manual of emergency airway management*, 3rd ed (Walls RM, Murphy MF), 1508
- Manual of pulmonary function testing*, 9th ed (Ruppel GL), 403
- Mechanical ventilation*, 2nd ed (MacIntyre NR, Branson RD), 269
- Medical statistics: a textbook for the health sciences*, 4th ed (Machin D et al), 401
- Noninvasive ventilation made simple* (Kinnear WJM), 264
- Overcoming steroid insensitivity in respiratory disease* (Adcock IM, Chung KF), 1271
- Paediatric respiratory medicine* (Hull J et al), 982
- Pediatric respiratory medicine*, 2nd ed (Taussig LF, Landau LI), 1414
- Peer review and manuscript management in scientific journals: guidelines for good practice* (Hames I), 271
- The pulmonary epithelium in health and disease* (Proud D), 1272
- Pulmonary hypertension* (Hill NS, Farber HW), 1414
- Rau's respiratory care pharmacology*, 7th ed (Gardenhire DS), 398
- Respiratory care patient-driven protocols*, 3rd ed (University of California San Diego, Respiratory Services) (PDF), 981
- Respiratory medicine: clinical cases uncovered* (Baker E, Lai D), 1738
- Respiratory nursing: a core curriculum* (Geiger-Bronsky M, Wilson DJ), 1123
- Sleep and breathing in children: developmental changes in breathing during sleep*, 2nd ed (Marcus CL et al), 1270
- Sleep disorders: diagnosis and therapeutics* (Pandiprimal SR et al), 1737
- Sleep in children: developmental changes in sleep patterns*, 2nd ed (Marcus CL et al), 1270
- Sleep medicine* (Smith HR et al), 803

- Ventilatory support for chronic respiratory failure* (Ambrosino N, Goldstein RS), 265
- Workbook for Egan's Fundamentals of respiratory care*, 9th ed (Wilkins RL, Wehrman S), 546

Workbook for Rau's respiratory care pharmacology, 7th ed (Gardenhire DS, Harwood RJ), 398

Breathing patterns

budesonide delivery from 30 jet nebulizer/compressor combinations using infant/child breathing patterns, 1671

influence on nebulization and delivery of arformoterol, 1488

Breathing tests

technique and rapid shallow breathing index (editorial), 1449

variation in rapid shallow breathing index, 1462

Bronchial provocation tests

specific conductance criteria for positive methacholine challenge test, 1168

Bronchiectasis

varicose, bronchopulmonary dysplasia and (case report), 1493

Bronchiolitis obliterans organizing pneumonia (BOOP)

other organizing pneumonias vs. (editorial), 1020

secondary, vs. cryptogenic organizing pneumonia, 1028

Bronchoalveolar lavage

non-bronchoscopic, vs. semi-quantitative endotracheal aspirates for diagnosing ventilator-associated pneumonia, 1453

ventilator-associated pneumonia, evidence-based diagnosis (editorial), 1446

Bronchodilators, bronchodilatation and bronchodilator administration

administering inhaled bronchodilators (editorial), 455

for COPD, 2007 GOLD guidelines, 1042

pharmacotherapy for stable COPD, 1058. Correction, 1501

Bronchopulmonary dysplasia

classification and pathophysiology, 1252

interventions and preventive strategies, 1255

management of, 1258

mechanical ventilation for, 1257

patent ductus arteriosus and, 1257

surfactant replacement therapy in neonates, 1203

varicose bronchiectasis and (case report), 1493

Bronchoscopy

CPAP and noninvasive ventilation during, 212

Budesonide

in vitro delivery from 30 jet nebulizer/compressor combinations using infant/child breathing patterns, 1671

C

Caloric intake

nutritional support and treatment outcome in critical illness, 1688

Calorimeters and calorimetry

measured vs. predicted energy requirements in critically ill cancer patients, 487

predictive equations for caloric requirements in critical illness, 453, 509

Carbon monoxide

therapeutic use, 925

Cardiovascular diseases and disorders

book reviews

Integrated cardiopulmonary pharmacology, 2nd ed (Colbert BJ, Kennedy BL), 1739

Living with your heart & lungs (Bryant SL, Obst G), 1736

Cardiovascular system

dinosaur physiology: circulatory and respiratory function (Egan Lecture), 887

Caregivers

book review

The comfort of home for chronic lung disease: a guide for caregivers (Meyer MM et al), 402

Case reports

acute fibrinous and organizing pneumonia caused by decitabine, 1263

airway pressure-release ventilation in pregnant patient with ARDS, 1405

late presentation of double aortic arch in children with asthma, 1402

noninvasive ventilation for respiratory failure from ATRA syndrome in pregnancy, 969

post-traumatic pulmonary pseudocyst, 538

pulmonary embolectomy, 390

reading of, 1372

recurrent pleural effusion from ventriculopleural shunt, 1112

snoring and growth failure in cystic fibrosis, 1727

varicose bronchiectasis and bronchopulmonary dysplasia, 1493

Chest compression, high frequency

following thoracic surgery, 340

postoperative, safety of (editorial), 322

techniques, 744

Chest imaging

book reviews

Chest radiology: the essentials, 2nd ed (Collins J, Stern EJ), 671

Chest X-ray made easy (Karthikeyan D, Chegu D), 129

primary pulmonary lymphoma and nonresolving pneumonia (teaching case of the month), 1266

pulmonary mass in immunocompromised patient (teaching case of the month), 973

Chest physical therapy

Acapella device, pressure characteristics under different conditions, 1480

cough augmentation techniques in neuromuscular disease, 359
 mechanical insufflation/exsufflation and airway clearance in neuromuscular disorders, 1473
 post-operative, high frequency chest-wall compression vs., 340
 techniques, 739

Chest wall

mobility and pulmonary function in COPD, 1703

Children *See also* **Pediatric respiratory care**

book reviews

Sleep and breathing in children: developmental changes in breathing during sleep, 2nd ed (Marcus CL et al), 1270

Sleep in children: developmental changes in sleep patterns, 2nd ed (Marcus CL et al), 1270

budesonide delivery from 30 jet nebulizer/compressor combinations using infant/child breathing patterns, 1671

late presentation of double aortic arch as asthma (case report), 1402

varicose bronchiectasis and bronchopulmonary dysplasia (case report), 1493

Chloride channels

stimulation in cystic fibrosis therapy, 600

Chronic lung disease

pulmonary rehabilitation for, 1091

smoking treatment and prevention, 1082

Chronic obstructive pulmonary disease (COPD)

book reviews

Chronic obstructive pulmonary disease: a forgotten killer (Midgley C), 399

Managing chronic obstructive pulmonary disease (Blackler L et al), 127

chest wall mobility and pulmonary function, 1703

continuous positive airway pressure for, 62

exercise rehabilitation for (editorial), 318

flawed fixed ratio for diagnosing (letter), 1500

hallway vs. treadmill 6-minute-walk tests for, 1712

hyperosmolar saline for, 318

hypertonic vs. normal saline inhalation with exercise training, 327

inhaled bronchodilators, administration of (editorial), 455

long-term oxygen therapy technologies, 1100. Correction, 1413.

noninvasive ventilation for

in acute-care setting, 40

in emergency department, 1306

helium-oxygen gas mixture during exercise, 1175

randomized controlled trials, 116, 121

shortening duration of mechanical ventilation, 198

portable oxygen delivery modes and functional exercise capacity, 344

prevention and management of exacerbations, guidelines, 1045

pulmonary rehabilitation for, 1091, 1163

smoking treatment and prevention, 1082

spirometry in diagnosis and management, 1050. Correction, 1501

stable

management guidelines, 1041

stepwise management with inhaled pharmacotherapy, 1058. Correction, 1501

translating evidence into practice, 1386

2007 GOLD guidelines as comprehensive care framework, 1040. Correction, 1501

Circulation

dinosaur physiology (Egan Lecture), 887

Clinical practice guidelines. *See* **Guidelines, recommendations and statements**

Clinical trials

hypertonic vs. normal saline inhalation with exercise training for COPD, 327

legacy of NIH Acute Respiratory Distress Syndrome Network (Kittredge Lecture), 912

noninvasive ventilation

for acute respiratory failure, 116

complications in acute care, 246

CPAP vs., for acute cardiogenic pulmonary edema, 186

shortening duration of mechanical ventilation, 198

Communication

e-mail communication in smoking-cessation program, 1024, 1033

reading case reports, 1372

reading scientific research paper, 1366

Comparative physiology

dinosaurs, circulatory and respiratory function (Egan Lecture), 887

Computed tomography (CT). *See* **Tomography, emission-computed**

Computer software

Acapella device, pressure characteristics under different conditions, 1480

Conference proceedings

cystic fibrosis, 586, 726

aerosol antibiotics for, 658

aerosol delivery devices, 754

airway clearance guidelines and implementation, 733

bacterial infections in, 628

Cystic Fibrosis Foundation mission, 788, 799

foreword, 586

infection control in, 641

lung transplantation for, 777

monitoring disease severity, 606, 797

mucus, phlegm, and sputum, 726

pathogenesis and new treatments, 595, 797

pulmonary complications, 618

- respiratory care for hospitalized patient, 769
- respiratory therapist role in, 587
- summary, 796
- neonatal respiratory care (New Horizons Symposium), 1193
 - bronchopulmonary dysplasia, 1252
 - extracorporeal membrane oxygenation for respiratory failure, 1244
 - nasal continuous positive airway pressure in, 1209
 - oxygen therapy, 1193
 - surfactant replacement therapy, 1203
 - volume-targeted vs. pressure-targeted mechanical ventilation, 1236
- noninvasive ventilation in acute care, 38, 186
 - for acute respiratory failure, randomized controlled trials, 116
 - for cardiogenic pulmonary edema, 186
 - characteristics of successful program, 53
 - complications of, 246, 262
 - for do-not-intubate patients, 223
 - foreword, 38
 - history and epidemiology of, 40
 - initiating program for, 232
 - interfaces and humidification, 71, 260
 - locations for delivery of, 62
 - novel uses of, 212, 262
 - physiologic effects, 102, 261
 - shortening duration of mechanical ventilation, 198
 - summary, 259
 - ventilators and modes for delivering, 85
- Continuous positive airway pressure (CPAP)**
 - during bronchoscopy, 212
 - for COPD, 62
 - nasal, in neonatal respiratory care, 1209
 - noninvasive ventilation vs., for acute cardiogenic pulmonary edema, 186
 - for obesity hypoventilation syndrome, 212
 - in postoperative care, 212

Respiratory diseases and disorders

book review
Respiratory medicine: clinical cases uncovered (Baker E, Lai D), 1738

Respiratory distress syndrome of infants

nasal continuous positive airway pressure for, 1223
surfactant replacement therapy, 1203
volume-targeted vs. pressure-targeted mechanical ventilation, 1236

Respiratory failure. *See also* Acute respiratory failure

in cystic fibrosis, 623
extracorporeal membrane oxygenation for, 950
hypoxemic, noninvasive ventilation outcomes in, 1679
neonatal, extracorporeal membrane oxygenation for, 1244
noninvasive ventilation for ATRA syndrome in pregnancy (case report), 969
post extubation, noninvasive ventilation preventing, 198
refractory hypoxemic, from lung adenocarcinoma with bronchioalveolar adenocarcinoma (teaching case of the month), 1496

Respiratory function tests

for cystic fibrosis, 606

Respiratory infections

noninvasive ventilation in pandemics, 212

Respiratory mechanics. *See* Lung mechanics

Respiratory muscles

maximal respiratory mouth pressures in adults, 1348
maximum inspiratory pressure tests and reference equations, 1321

Respiratory system

The physiology of dinosaurs: circulatory and respiratory function in the largest animals ever to walk the earth (Egan Lecture), 887

Respiratory therapists

- clinical education, preceptor training needs assessment, 868
- creating future vision for, 375
- in cystic fibrosis management, 587
- physicians vs., tracheostomy decannulation practices, 1658
- program resources and student retention in respiratory care education programs, 1187
- pulmonary exacerbation in cystic fibrosis, care of hospitalized patient, 769
- smoking treatment and prevention role of, 1082
- workload comparison with 2 different nebulizers, 495

Respiratory tract infections

- mechanical insufflation/exsufflation and airway clearance in neuromuscular disorders, 1473

Resuscitation

- manual resuscitators for newborn infants (editorial), 1638
- self-inflating resuscitation bag, oxygen concentrations without reservoir, 1665

Retinopathy of prematurity

- as oxygen therapy complication, 1195

Review articles

- disease management for adults with asthma, 878
- maximal respiratory mouth pressures in adults, 1348
- physiologic basis of spirometry, 1717
- predictive equations for energy needs for the critically ill, 509

Risk factors

- Are tracheostomized patients safe on regular hospital wards? (editorial), 1632
- postoperative pulmonary hypertension, 961

S

Saline

- hyperosmolar, for COPD, 318
- hypertonic vs. normal, inhalation and exercise training for COPD, 327

Sauropods

- physiology of dinosaurs (Egan Lecture), 887

Scoring, disease severity

- evidence-based approach to diagnosis of ventilator-associated pneumonia (editorial), 1446

Secretions. See Fluids and secretions

Sedation

- noninvasive ventilation complications and, 246

Severe acute respiratory syndrome (SARS)

- infection control, 841
- metered dose inhaler with spacer vs. nebulizer, 855
- withholding noninvasive ventilation during epidemic (letter), 1412

Sighs

- recruitment maneuvers vs. optimal PEEP during lung-protective mechanical ventilation in ARDS and acute lung injury, 847
- A sigh of relief for ARDS? (editorial), 839

Sleep disorders

- book reviews
 - Sleep and breathing in children: developmental changes in breathing during sleep*, 2nd ed (Marcus CL et al), 1270
 - Sleep disorders: diagnosis and therapeutics* (Pandi-Perumal SR et al), 1732
 - Sleep in children: developmental changes in sleep patterns*, 2nd ed (Marcus CL et al), 1270
 - Sleep medicine* (Smith HR et al), 803
 - Sleep medicine: essentials and review* (Lee-Chiong, T Jr.), 802
- snoring and growth failure in cystic fibrosis (case report), 1727

Smoking and smoking cessation

- e-mail communication in smoking-cessation program, 1024, 1033
- smoking treatment and prevention, 1082

Snake bites

- automatic tube compensation as adjunct for weaning from ventilation in neuroparalytic snake envenomation, 1697

Snoring

- growth failure in cystic fibrosis and (case report), 1727

Sodium channel blockers

- for cystic fibrosis therapy, 600

Solutions

- output and aerosol properties of five nebulizer systems with arformoterol inhalation solution, 1342

Spirometry

- chest wall mobility and pulmonary function in COPD, 1703
- clinical and lung function variables in vocal cord dysfunction, 467
- for COPD diagnosis and management, 1050. Correction, 1501
- for cystic fibrosis monitoring, 606
- flawed fixed ratio for diagnosing COPD (letter), 1500
- late presentation of double aortic arch in children with asthma (case report), 1402
- physiologic basis of (review article), 1717
- upper airway obstruction detection, vs. flow-volume loop, 474

Sputum

- Acapella device, pressure characteristics under different conditions, 1480
- in cystic fibrosis, 726

Statistics and study design

- book review

Medical statistics: a textbook for the health sciences,
4th ed (Machin D et al), 401

Steroids

book reviews

Overcoming steroid insensitivity in respiratory disease (Adcock IM, Chung KF), 1271

inhaled, for stable COPD management, 1068

Substance abuse

toluene toxicity causing elevated anion gap metabolic acidosis (teaching case of the month), 1115

Suctioning and suctioning devices

closed-system endotracheal suctioning, physiologic impact in spontaneous breathing during mechanical ventilation, 367

Surveys and questionnaires

noninvasive ventilation

for acute respiratory failure in Veterans Affairs hospitals, 1313

emergency department use of, 1306

underuse by physicians (editorial), 1302

preceptor training needs assessment, 868

respiratory therapist and physician tracheostomy decannulation practices, 1658

Survival. See Morbidity and mortality

Systematic reviews

cystic fibrosis pulmonary guidelines for airway clearance therapies, 522

reading of, 1379

T

Teaching Case of the Month

hypoxemic respiratory failure, from lung adenocarcinoma with bronchioloalveolar carcinoma, 1496

nonresolving pneumonia, unusual cause of, 1266

pulmonary mass in immunocompromised patient, 973

pulmonary tumor embolism and pancreatic adenocarcinoma, 1732

right paratracheal air cyst (tracheal diverticulum), 1409

severe arterial hypoxemia in liver cirrhosis, 393

therapeutic pneumothorax for tuberculosis, 542

toluene toxicity causing elevated anion gap metabolic acidosis, 1115

Teams and teamwork

noninvasive ventilation program, characteristics for success, 53

Terminal care

noninvasive ventilation for do-not-intubate patients, 223

Thoracic injuries

post-traumatic pulmonary pseudocyst (case report), 538

Thoracic surgery

high frequency chest-wall compression following, 340

Tidal volume

breathing pattern influence on nebulization and delivery of arformoterol, 1488

work of breathing in adaptive pressure control ventilation, 1467

Time factors

respiratory care workload comparison with 2 different nebulizers, 495

Tobacco abuse. See Smoking and smoking cessation

Tobramycin

inhaled, for cystic fibrosis, 664

Toluene toxicity

elevated anion gap metabolic acidosis from (teaching case of the month), 1115

Tomography, emission-computed (CT)

book review

CT of the airways (Boiselle PM, Lynch DA), 267

post-traumatic pulmonary pseudocyst (case report), 538

Tonsillar hypertrophy

snoring and growth failure in cystic fibrosis (case report), 1727

Tracheal diseases

right paratracheal air cyst (tracheal diverticulum) (teaching case of the month), 1409

Tracheotomy and tracheostomy

Are tracheostomized patients safe on regular hospital wards? (editorial), 1632

ICU patient outcomes with tracheostomy, 1653

respiratory therapist and physician tracheostomy decannulation practices, survey, 1658

Toward leaner tracheostomy care: first observe then improve (editorial), 1635

tracheostomy tube at ICU discharge and increased ward mortality, 1644

Transplantation

carbon monoxide in, 927

Transportation of patients

LTV-1000 portable ventilator, accuracy of oxygen cylinder duration calculator, 1165, 1183

Treadmill tests

hallway vs. treadmill 6-minute-walk tests in COPD, 1712

Treatment outcomes

adult asthma disease management (review article), 878

e-mail counseling in smoking-cessation program, 1033

ICU patient outcomes with tracheostomy, 1653

long-term oxygen therapy technologies, 1100. Correction, 1413.

noninvasive ventilation outcomes in acute hypoxemic respiratory failure, 1679

noninvasive ventilation program, characteristics for success, 53

nutritional support in critical illness, 1688

portable oxygen delivery systems, performance variability and patient outcomes (editorial), 324

pulmonary rehabilitation for chronic lung disease, 1094
 routine respiratory therapist evaluation of non-ICU surgical patients, 861

Tuberculosis

book review
Clinical tuberculosis, 4th ed (Davies PDO, Barnes PF, Gordon SB), 674
 therapeutic pneumothorax for (teaching case of the month), 542

Tubes, endotracheal

physiologic impact of closed-system suctioning in spontaneous breathing during mechanical ventilation, 367
 Y-piece temperature and humidification in mechanical ventilation, 480

U

User interface

for noninvasive ventilation, 71
 respiratory mechanics display in mechanical ventilation, 941

V

Venous thrombosis

pulmonary embolectomy for (case report), 390

Ventilation, noninvasive. See Noninvasive ventilation

Ventilation, pressure-support

automatic tube compensation with, for ventilation weaning in neuroparalytic snake bite injuries, 1697
 physiologic effects of noninvasive ventilation, 102
 volume control vs., for noninvasive ventilation, 85

Ventilator circuits

moisture accumulation in inline spacer and aerosol delivery with metered-dose inhaler, 1336

Ventilators, portable

LTV-1000, accuracy of oxygen cylinder duration calculator, 1165, 1183

Ventilatory pattern

in noninvasive ventilation delivery, 85

Ventriculopleural shunt

recurrent pleural effusion from (case report), 1112

Visioning

creating future vision for respiratory care, 375

Vital capacity

maximal respiratory mouth pressures in adults, 1348

Vocal cord dysfunction

clinical and lung function variables in, 467

W

Walking

hallway vs. treadmill 6-minute-walk tests in COPD, 1712

Weaning from ventilatory support

automatic tube compensation with pressure-support ventilation, in neuroparalytic snake bite injuries, 1697
 closed-loop control of, 934
 noninvasive ventilation shortening duration of mechanical ventilation, 198
 physiologic impact of closed-system endotracheal suctioning in spontaneous breathing, 367
 technique and rapid shallow breathing index (editorial), 1449
 tracheostomy tube at ICU discharge and increased ward mortality, 1644
 variation in rapid shallow breathing index and measurement techniques, 1462

Work of breathing

in adaptive pressure control ventilation, 1467
 expiratory regulation and Servo-i ventilator during invasive neonatal ventilation (letter), 1118
 New ventilatory dual mode: are we ready to perform large clinical trials? (editorial), 1451
 noninvasive ventilation effects on, 102

Workload

respiratory care, comparison with 2 different nebulizers, 495

Writing for publication

book reviews
Peer review and manuscript management in scientific journals: guidelines for good practice (Hames I), 271
